PROFESSIONAL SUMMARY

Frontend Engineer with about 5 years of experience building scalable, high-performance web and mobile applications across fintech, compliance, e-commerce, event platforms and other industries. Deep expertise in React, Next.js, TypeScript, and modern state management, with hands-on experience collaborating with design, backend, product, and security teams. With a strong focus on delivering responsive web applications, mobile applications, PWA's, optimize performance, accessibility, and the ability to translate business requirements into pixel-perfect, user-centric interface while collaborating effectively with cross-functional teams.

TECHNICAL SKILLS

Core Languages: JavaScript ES6+, TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, React Native, Next.js, Redux, Zustand

Styling & UI: Tailwind CSS, Material UI, Ant Design, Responsive Design, Accessibility (WCAG)

Performance & Standards: Progressive Web Apps (PWA), Web Vitals, Lazy Loading, Code Splitting

API Integration: RESTful APIs, WebSockets, Axios, OAuth, JWT

Build & Tooling: Webpack, Vite, NPM, Git, GitHub, GitLab

Testing: Jest, Mocha, Unit Testing, Component Testing, Storybook

Deployment: Vercel, Netlify, CI/CD pipelines

Collaboration: Jira, Asana, Slack, Figma, Google Workspace

PROFESSIONAL EXPERIENCE

Senior Frontend Developer | Forcythe, April 2025 – December 2025

Lagos, Nigeria

Perime – Event & Venue Management Platform

- Worked on Perime, an event and venue management platform where event organizers list events and users purchase tickets directly on the platform.
- Helped build features that allow restaurants, hotels, lounges and similar venues to list their spaces and accept reservations from users.
- Contributed to the management dashboard used to oversee the events, venues, bookings, ticket sales, and overall platform activities and metrics.

Peripay – Cross-Border Fintech Application

- Worked on Peripay, a fintech application that enables users to send and receive money and cryptocurrency across Africa, the UK and USA.
- Contributed to core user flows around payment, transactions and cross-border transfer.
- Helped build user and admin experiences for monitoring transactions, balances, and metrics.

Frontend Developer | Vegeel, April 2024 – January 2025

Remote, USA

- Developed compliance management system using ReactJS, Tailwind CSS, and Axios helping organizations track and meet regulatory requirements
- Created user dashboards for compliance officers to monitor obligations, audits, and risk assessments in real-time
- Implemented dynamic forms with validation for capturing regulatory data across multiple jurisdictions
- Optimized data fetching and rendering for large datasets reducing load times and improving system responsiveness
- Deployed application on Vercel and managed version control with GitHub delivering maintainable scalable code

Frontend Developer | Qataloog, February 2024 – April 2024

Lagos, Nigeria

- Built a responsive e-library platform using TypeScript, Redux, and Tailwind CSS providing African universities access to academic resources
- Implemented intuitive content discovery interfaces with efficient state management and seamless API integration
- Optimized frontend performance and scalability to support a growing user base across multiple university partners

Frontend Developer | All Round Care (A.R.C), November 2022 – January 2024

Lagos, Nigeria

- Developed a Progressive Web App for a wholesale e-commerce platform, enabling bulk purchases for retailers and families
- Integrated robust REST APIs using Axios and collaborated closely with backend to ensure smooth data flow and optimal UX
- Improved application performance and shopping experience through streamlined state management and responsive design

Web Development Instructor | Bafuto Institute of Management and Technology, August 2021 – June 2024

Lagos, Nigeria

- Delivered engaging curriculum covering HTML, CSS, and JavaScript to aspiring frontend developers
- Provided mentorships, code reviews, and industry insights; developed hands-on workshops and real-world projects

EDUCATION

Bachelor of Science in Computer Science | 2025

Miva University, Lagos, Nigeria

CERTIFICATIONS

Frontend Development – ALX Africa, 2024

Computer Science – Bafuto Institute of Management and Technology, 2021
